PROFESSIONAL SUMMARY

Computer Science undergraduate (Data Science) with strong foundations in Python, SQL, and data-driven application development. Experienced in building functional systems such as database-integrated applications and exploring AI/ML concepts. Proven ability to lead teams and manage operations in high-impact environments. Seeking opportunities to apply technical and analytical skills to real-world problems.

EDUCATION

Manipal Institute of Technology, Bengaluru
Bachelor of Technology (B. Tech) – Computer Science & Engineering (Data Science)
August 2024 – June 2028

- CGPA: 7.92 (As of Semester 3) – 65 out of 65 credits earned

EXPERIENCE & LEADERSHIP

1. **Office of Corporate Engagement & Career Advisory Services, MIT Bengaluru**
   Junior Placement Committee Member | Nov 2025 – Present
- Supporting student placements and corporate engagement initiatives & coordinating between students and recruiters
2. **Rubaru'26 – MIT Bengaluru**
   Head of Operations | Jan 2026 – Present
- Leading operational strategy for Inter-Departmental Cultural Fest & managing logistics, coordination teams, and event execution
3. **XENORA MUN**
   Under Secretary General | Nov 2025 – Present
- Oversaw Operations, Logistics & HR & managed delegate coordination and event structuring
4. **SideQuest**
   Operations & Logistics Head | Aug 2025 – Present
- Directed execution planning and cross-functional coordination
5. **TechSolstice'26 & Falak'25 at MAHE Bengaluru**
   Organizing Committee
- Managed Operations for flagship technical and cultural fest

PROJECTS

CineBook – Movie Ticket Booking System | JavaFX

- **Developed a desktop application with booking, cancellation, and real-time seat tracking**
- **Implemented file persistence, search functionality, and revenue dashboard**

Handwritten Digit Recognizer (AI + CV) | Python, TensorFlow, OpenCV

- **Built a CNN model for digit classification using MNIST dataset**
- **Developed Streamlit UI and gesture-based drawing using MediaPipe**

Airline Reservation System | JavaFX, Oracle SQL

- **Designed a role-based system with full CRUD operations and DAO architecture**
- **Used SQL triggers, sequences, and constraints for data integrity**

SKILLS

Languages: Python, Java, SQL
AI & Data: Machine Learning (Basics), Data Analytics, Computer Vision (OpenCV, MediaPipe)
Tools/Frameworks: JavaFX, Streamlit, TensorFlow, Git/GitHub
Database: Oracle SQL, CRUD, DAO Architecture

CERTIFICATIONS

Linux on IBM LinuxONE Intermediate – IBM Skills Build *(Apr 2026)*

- Gained hands-on experience in software installation, virtualization, and resource management
- Worked with enterprise Linux environments and evaluated cloud, AI, and security solutions

Artificial Intelligence Fundamentals – IBM Skills Build *(Mar 2026)*

- Built foundational knowledge in machine learning, deep learning, NLP, and computer vision
- Gained exposure to model development using IBM Watson Studio and AI ethics

Data Fundamentals using IBM Watson Studio – IBM Skills Build *(Oct 2025)*

- Learned data analytics, data processing, and visualization techniques
- Worked with IBM Watson Studio for data-driven workflows

AI Virtual Internship – EdiGlobe *(Oct 2025)*

- Completed internship focused on Artificial Intelligence concepts and applications
- Gained practical exposure to AI workflows and implementation basics
