PROFESSIONAL SUMMARY

Computer Science & Engineering (Data Science) undergraduate with strong foundations in Java, Python, SQL, Data Structures & Algorithms, Object-Oriented Programming, databases, and software development. Built database-driven and AI-powered applications and led cross-functional campus operations involving students, recruiters, and internal stakeholders. Strong analytical, problem-solving, communication, and coordination skills with an interest in translating business needs into practical technology solutions.

EDUCATION

Manipal Institute of Technology, Bengaluru | B. Tech – Computer Science & Engineering (Data Science)

Aug 2024 – Jun 2028 | CGPA: 7.79 / 10.00 (Semester 4) | 87/87 credits earned

Dalmia Vidya Mandir, Rajgangpur | CBSE: Class XII: 90% | April 2022 – May 2023

Dalmia Vidya Mandir, Rajgangpur | CBSE: Class X: 99.8% | April 2020 – May 2021

TECHNICAL SKILLS

- **Programming:** Java, Python, C#, C++, SQL
- **Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, SDLC
- **Technologies:** JavaFX, JDBC, Oracle SQL, TensorFlow, OpenCV, Streamlit, MediaPipe
- **Tools:** Git, GitHub, IntelliJ IDEA, Linux
- **Professional:** Stakeholder Coordination, Technical Communication, Problem Solving, Event Operations

PROJECTS

Airline Reservation System | Java, JavaFX, Oracle SQL, JDBC, DAO Pattern | GitHub

- Developed a role-based reservation application with authentication, CRUD workflows, DAO architecture, and a normalized Oracle SQL database.
- Designed database constraints, triggers, sequences, and relational tables to support data integrity and reliable application workflows.

CineBook – Movie Ticket Booking System | JavaFX | GitHub

- Built a modular booking system covering seat allocation, booking/cancellation, revenue analytics, and exception handling using OOP principles.
- Structured application components for maintainability and consistent handling of user-driven booking scenarios.

Handwritten Digit Recognition | Python, TensorFlow, OpenCV, Streamlit, MediaPipe | GitHub

- Built a CNN-based digit recognition solution and integrated an interactive Streamlit interface for real-time prediction.

LEADERSHIP & STAKEHOLDER EXPERIENCE

Office of Corporate Engagement & Career Advisory Services (CECAS), MIT Bengaluru | Junior Placement Committee Member | Nov 2025 – Present

- Coordinated with 7+ companies and 90+ HR contacts, placement coordinators, and students during campus recruitment drives, supporting recruiter communication, scheduling, and drive execution.

SideQuest – MIT Bengaluru | Operations & Logistics Head | Aug 2025 – Aug 2026

- Led operations for events involving 300+ participants, coordinating volunteers, logistics, schedules, communication, and on-ground issue resolution to ensure smooth execution.

Rubaru’26 – MIT Bengaluru | Head of Operations | Jan 2026 – Apr 2026

- Led operational planning and volunteer coordination for an inter-departmental cultural fest involving 200+ participants, coordinating event logistics, schedules, and on-ground execution.

CERTIFICATIONS

Data Fundamentals using IBM Watson Studio – IBM SkillsBuild (Oct 2025)

- Learned data analytics, data preprocessing, visualization, and IBM Watson Studio workflows.

Artificial Intelligence Fundamentals – IBM SkillsBuild (Mar 2026)

- Studied machine learning, deep learning, NLP, computer vision, AI ethics, and IBM Watson Studio.

Linux on IBM LinuxONE Intermediate – IBM SkillsBuild (Apr 2026)

- Gained experience with Linux environments, virtualization, software installation, and enterprise resource management.

AI Virtual Internship – EdiGlobe (Oct 2025)

- Completed an AI-focused virtual internship involving practical exposure to artificial intelligence concepts and applications.
