PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Data Science with strong foundations in Java, Python, SQL, Data Structures & Algorithms, Computer Networks, and Object-Oriented Programming. Experienced in building database-driven applications and AI-powered software solutions through academic and personal projects. Passionate about solving complex engineering problems, learning scalable technologies, and contributing to innovative software development.

EDUCATION

Manipal Institute of Technology, Bengaluru

Bachelor of Technology (B. Tech) – Computer Science & Engineering (Data Science)

August 2024 – June 2028

- CGPA: 7.79 (As of Semester 4) – 87 out of 87 credits earned

RELEVANT COURSEWORK

Data Structures & Algorithms, Operating Systems, Computer Networks, Database Management Systems, Object-Oriented Programming

SKILLS

Programming: Java, Python, C#, C++, SQL, JavaScript, HTML, CSS

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Database Management Systems, Software Development Lifecycle

Frameworks & Libraries: JavaFX, TensorFlow, Streamlit, OpenCV, MediaPipe

Developer Tools: Git, GitHub, IntelliJ IDEA, Oracle SQL, Vercel

PROJECTS

Airline Reservation System | Java • JavaFX • Oracle SQL • JDBC • DAO Pattern • Git: <https://github.com/SrikaraSasank/AirlineReservationSystem>

- Developed a role-based Airline Reservation System implementing CRUD operations, DAO architecture, authentication, and normalized Oracle SQL database design.
- Designed relational database schema using Oracle SQL with triggers, sequences, constraints, and normalized tables to ensure data integrity.

CineBook – Movie Ticket Booking System | JavaFX: <https://github.com/SrikaraSasank/MovieBookingSystem>

- Developed a modular JavaFX-based movie ticket booking system implementing booking, cancellation, seat allocation, revenue analytics, and exception handling using Object-Oriented Programming principles.
- Implemented exception handling and modular architecture to improve maintainability.

Handwritten Digit Recognition using Deep Learning (AI + CV) | Python, TensorFlow, OpenCV: <https://github.com/SrikaraSasank/DigitRecognizer>

- Built a CNN-based handwritten digit recognizer using TensorFlow and OpenCV, integrating a Streamlit interface with MediaPipe for real-time prediction.

Portfolio Website | HTML, CSS, JavaScript, Vercel: https://github.com/SrikaraSasank/portfolio_website

- Developed and deployed a responsive portfolio website on Vercel showcasing 4+ projects, certifications, and leadership experience.

LEADERSHIP & CAMPUS INVOLVEMENT

- Office of Corporate Engagement & Career Advisory Services, MIT Bengaluru**
Junior Placement Committee Member | Nov 2025 – Present
 - Coordinated between recruiters, placement office, and students during campus recruitment drives while assisting with corporate engagement activities.
- SideQuest – MIT Bengaluru**
Operations & Logistics Head | Aug 2025 – Present
 - Coordinated cross-functional teams of volunteers to execute multiple technical and cultural events, ensuring smooth logistics and on-time delivery.
- Rubaru'26 – MIT Bengaluru**
Head of Operations | Jan 2026 – April 2026
 - Led operational strategy and logistics coordination for an inter-departmental cultural fest, managing volunteers and ensuring smooth event execution.

CERTIFICATIONS

Linux on IBM LinuxONE Intermediate – IBM Skills Build (Apr 2026)

- Gained hands-on experience in software installation, virtualization, and resource management
- Worked with enterprise Linux environments and evaluated cloud, AI, and security solutions

Artificial Intelligence Fundamentals – IBM Skills Build (Mar 2026)

- Built foundational knowledge in machine learning, deep learning, NLP, and computer vision
- Gained exposure to model development using IBM Watson Studio and AI ethics
